
DWG.NO. DLF/SIEL/BLK-4/A-308

INSTRUCTION NOTES :

THIS COMMERCIAL DEVELOPMENT HAS BEEN CONCIEVED DESIGNED AND DRAFTED ON BASIS OF THE FOLLOWING PARAMETERS :

1. All usable spaceswill be centrally air conditioned . Therefore no provision has been made for natural ventilation of the floor spaces.
2. All toilets will be mechanically ventilated. Conditioned air will be sucked in to the toilets and vented out though a vent shaft.
3. Basement will be artificially ventilated through mechanical fans.
4. All spaces (office spaces, service basements etc.) will be artificially lit. Any natural light which is available in the office spaces is only incidental and not essential for the building function.
5. 100% Standby generated electricity will be provided for the entire electrical requirement of the total design scheme. This therefore thus includes standby electricity generation for all common services, fire services, lifts etc.
6. 100% Standby generated electricity will also be provided for the entire electrical load for ventilation, air-conditioning, lights.
7. This building will be sprinkled as per N.B.C norms
